

Get the phone plan... with the phones.

All dead phones go to the cloud anyway.
What are you waiting for?
Swap your system now.

No risk, no contract,
no equipment cost.

boost

Time to switch to the cloud? Get the phone plan... with the phones.

Within 10 years, all business phone solutions will be cloud based. Old equipment won't last forever and neither will the technicians that know how to service them.

That puts business continuity at risk.

The babyTEL boost plan gives you everything you need to bring your system into the cloud. Including the phones.

Join the future today—with our complete cloud phone solution that sets up in 10 minutes with no capital costs, shipping, or contracts.

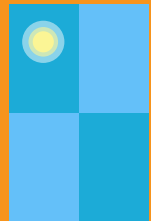

You're not in heaven, it's just cloudy at the top.
